DESCRIPTION OF ABSTRACT OF DRIVING RECORD

Form DS-242 (Abstract of Driving Record) shows basic licensing information. Most suspensions and revocations are displayed on an abstract while they are open and an additional four years from the date they are cleared. Suspensions for refusal to submit to a chemical test are displayed for five years from the date of suspension. Accidents are displayed for the remainder of the calendar year of the accident date, plus three years. Most traffic convictions will display for the remainder of the calendar year of the conviction date, plus three years. Convictions for operating a motor vehicle under the influence of alcohol or drugs are displayed for ten years from the conviction date. Some serious violations, such as vehicular homicide, are displayed permanently.

Each abstract identifies the motorist, gives the class of license, the current license status, the license expiration date and any restrictions and/or endorsements that limit or expand the driving privilege.

THE RECORD SUMMARY LINE SHOULD ALWAYS BE USED TO DETERMINE THE CURRENT STATUS OF THE DRIVER'S LICENSE OR DRIVING PRIVILEGE.

The **Record Summary Line** is printed just above the "Activity" section. It tells what class license or permit is held, and whether the status is Valid, Revoked, Suspended, Cancelled, Surrendered or Approved (for future license privileges after a revocation). It will also show what type document the motorist has (a permit, a license, a conditional or restricted use license, or a non-driver ID card) and when the license/permit/ID card expires. If the individual has not had a NY Driver License or Non-Driver ID, that information appears on the Record Summary Line as NO NY LICENSE. There will be more than one Record Summary Line if the motorist has a valid license in one class and a valid permit in another class. It is also possible to have a valid non-commercial license while the commercial privilege (CDL) is revoked or suspended (this is shown on more than one Record Summary Line).

Other license information is grouped in separate sections by action type. Each section is separated by a line of asterisks and a heading that identifies what information is in each section. The **ACTIVITY** section is first, followed by **SUSPENSIONS/REVOCATIONS**, **CONVICTIONS/BAIL FORFEITURES** and **ACCIDENTS**.

The **ACTIVITY** section of the record shows: accident prevention course completion and the period of time to which the point reduction applies; "prohibits" (which prevent transactions from taking place until requirements are met); CDL history information; reciprocity information (a NY license issued on the basis of a valid license presented from another jurisdiction); information that the NY license was surrendered to another jurisdiction; special licenses or privileges (such as conditional or restricted use); and various notes such as stolen license information.

SUSPENSIONS/REVOCATIONS for moving violations (and all reasons other than scofflaws) are grouped together and listed in order number sequence, so they are not always in chronological order. Suspensions for failure to answer a traffic ticket or to pay a fine (scofflaws) follow and are listed by order effective date, with the most recent appearing first. The first date in each record is the order effective date, followed by the reason the order was imposed. If "Complied On" appears on the order, this refers to the date on which all license documents were surrendered. If the suspension/revocation has been cleared, the clearance date and reason are shown.

CONVICTIONS/BAIL FORFEITURES are in violation date order, with the most recent appearing first. Other conviction/bail forfeiture information includes reason, date, location of violation, amount of fine, sentence length in days, and point value assessed, if any.

ACCIDENTS are in accident date order with the most recent appearing first. Information includes whether the accident involved a fatality, personal injury and/or property damage, the county where the accident occurred and whether a police and/or motorist report was filed. If the accident is excluded from the three accident re-examination program, that information is shown.

NEW YORK STATE DRIVER LICENSE CLASSES

License class codes were changed effective 2/19/91 to conform to federal commercial driver legislation. These codes are used by every state as a national standard. Commercial driver licenses (CDLs) will appear on the Record Summary Line as license class CDL A, B or C. A driver who has one class of license, and who obtains a motorcycle license or a learner permit for another class will have more than one Record Summary Line, to show the status of each document. A driver with only a Class M or MJ license is limited to motorcycle operation.
